Experiment-10

Student Information System

AIM:

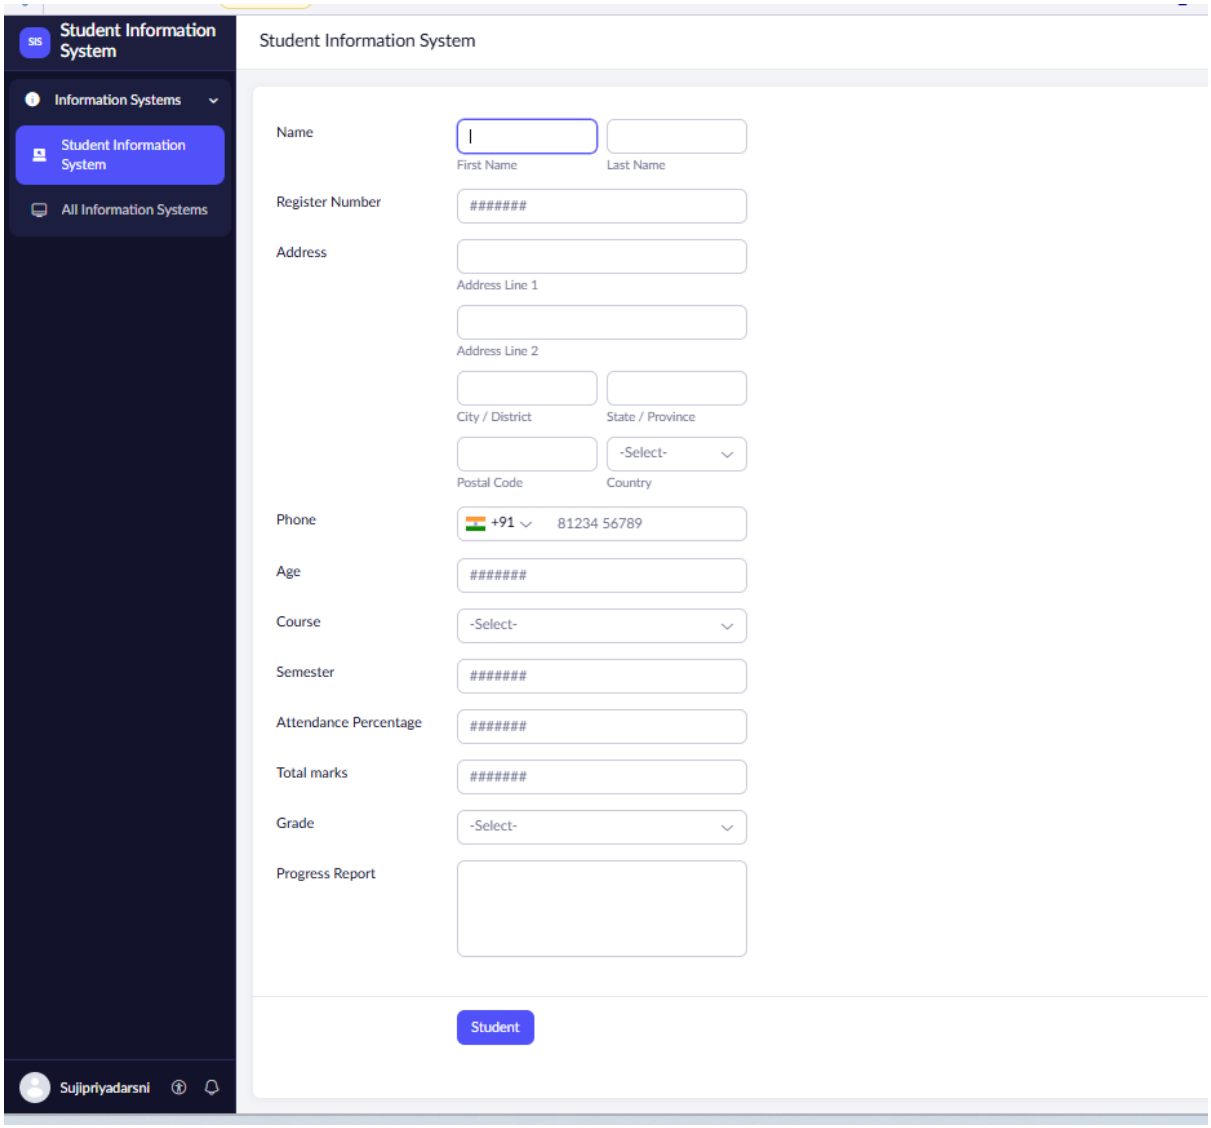

To create a simple Cloud-based Student Information System using Zoho Creator to demonstrate the Software as a Service (SaaS) model and maintain student details, courses, grades, attendance reports, progress reports, and semester mark sheets.

PROCEDURE:

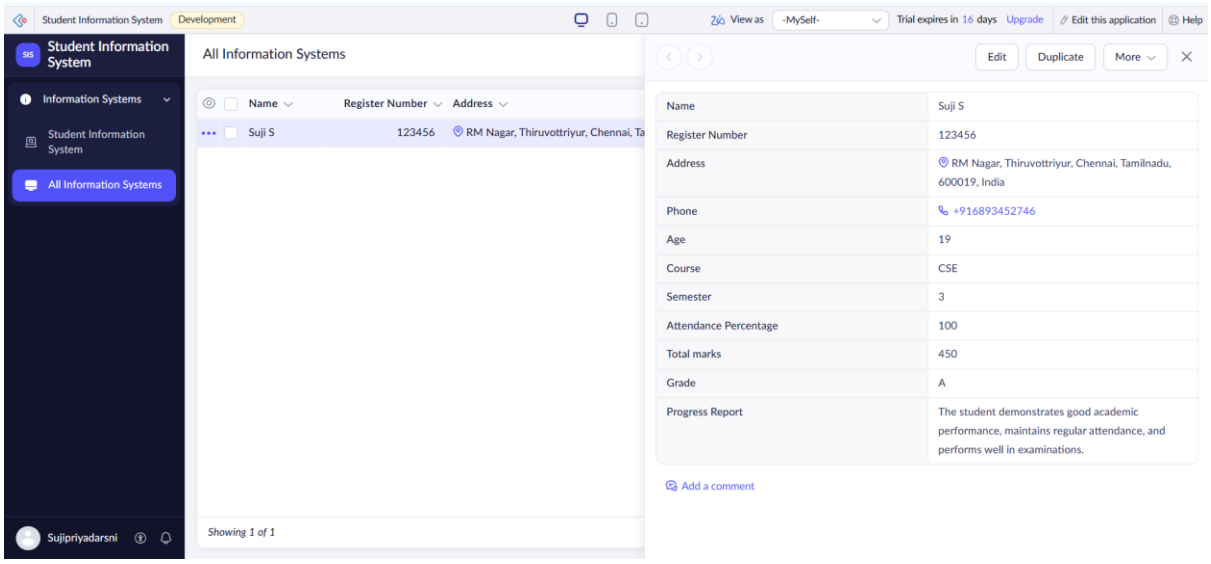

1. Open Zoho Creator and sign in to your account.
2. Click Create Application → Create from Scratch.
3. Enter the application name as Student Information System.
4. Create a blank form named Student Information.
5. Add the fields Student Name, Register Number, Address, Phone, Age, Course, and Grades.
6. Create another form named Attendance Report and add Register Number, Course, Total Classes, Classes Attended, and Attendance Percentage.
7. Create another form named Progress Report and add Register Number, Semester, Subjects, Marks, and Overall Performance.
8. Create another form named Semester Mark Sheet and add Register Number, Semester, Subject Name, Marks Obtained, Total Marks, and Grade.
9. Select suitable field types such as Single Line, Number, Phone, Address, Dropdown, and Multi Line.
10. Save all the forms and enter sample student details.
11. Create reports for Student Information, Attendance, Progress, and Semester Marks.
12. Test the application by entering student records and viewing the reports.
13. Publish or share the application with the required permissions.
14. Access the application through a web browser to demonstrate the SaaS model.

RESULT:

Thus, a Cloud-based Student Information System was created using Zoho Creator. The application stores and displays student details, courses, grades, attendance reports, progress reports, and semester mark sheets, demonstrating the Software as a Service (SaaS) model.
